111 Paseo del Canon West Taos, NM

COURSE DESCRIPTION

Whether spending time in the backcountry is your passion or your profession, you should never have to ask, "What do I do now?" On this course, you'll learn how to prepare for the unexpected. WMI's curriculum is unique and includes many advanced topics that other programs leave out such as dislocation reduction, focused spinal assessment, and epinephrine administration. In just three days, you'll have the knowledge, skills and ability to make sound decisions in emergency situations. This course is ideal for trip leaders, camp staff, outdoor enthusiasts and individuals in remote locations. Fast paced and hands-on, this three-day course covers a wide range of wilderness medicine topics for people who travel in the outdoors. WMI's course is pre-approved by such organizations as the American Camping Association, the United States Forest Service, and other governmental agencies.

This course includes adult/child CPR. The schedule for the 16-hour WFA section and the 4-hour CPR section of the course is as follows: (March 22 & 23, 8:00am – 5:00pm; March 24, 8:00am – 12:00 noon)
